## Description

AIR. Choose the one that suits you.

The MacBook Air stylishly reflects your personality – choose the size and color, then take it with you. Each model is made from recycled aluminum, and its fanless design ensures quiet operation.

Fast and long battery life.

The M2 chip delivers incredible speed for every task, and with long battery life, you can use it all day without needing to carry a charger.

Stunning display.

The Liquid Retina display, supporting a billion colors, offers rich contrast and sharp details, with text that is easy to read.

Comfortable and secure use.

The Magic Keyboard ensures quiet typing, and with Touch ID, you can unlock your Mac and sign in with just a single touch.

Advanced connectivity.

The MagSafe charger connects magnetically, and the Thunderbolt ports are perfect for connecting high-speed accessories and even 6K displays.
